Subject: Invitation Letter for Conduction of Webinar at Genba Sopanrao Moze college of Engineering, Pune.

Dear Sir/Mam,

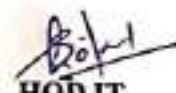

The Genba Sopanrao Moze trust is an educational trust, a pioneer in offering various technical Diploma, Degree approved by AICTE Delhi, Government of Maharashtra, DTE and affiliated to Savitribai Phule Pune University.

We the Department of Civil Engineering of GSMCOE, Balewadi Pune want to have Webinar at our Institute on "Opportunity for Civil Engineers in water sector , under Jal Jeevan Mission" on 01 October 2021, Friday at 12.00 PM .It will really be a great pleasure to have your Online presence .

Hope you will able to put some time with our faculties by your endless knowledge.

Thanks and Regards,

NOTICE

All teaching Faculties and Students are informed that Inode has organized a webinar on “Opportunity for Civil Engineers in water sector , under Jal Jeevan Mission”.

Date and Time: 01 October 2021, Friday at 12.00 PM

Proposed Agenda of the Webinar:

- Understanding Water Issues.
- Understand the vision and Mission & Objectives of Jal Jeevan Mission.
- Components of Jal Jeevan Mission.

The objective of this webinar is to support **Jal Jeevan Mission** and Provide faculty members with knowledge and awareness for **Jal Jeevan Mission**.

'OPPORTUNITIES FOR CIVIL ENGINEER IN WATER SECTOR UNDER JAL JEEVAN MISSION'
Date :1/10/2021

Sr. No.	NAME	FEEDBACK
1	Shailesh bachche	Awesome
2	TEJAS TANAJI DAGADE	Good
3	Amruta Warale	Good
4	Manasi Vitthal Chavan	Good
5	Khod Jagdish Baban	It is very informative webminar. I comes to know the water sector and opportunities so I willing to do in this sector
6	Gaikwad Rajesh Tukaram	Good to Attending this meeting. It's very helpful for our own Knowledge and also for the job. Thank you Mam and Sir for this Webinar.
7	Ajay arun rathod	Thank you for information which you have given except different fields of civil engineering there much more to learn about water treatment and all its importance for next 3 years
8	Abhishek Suryawanshi	Good
9	Amit Devidas Pawshere	Totally helpful session it was!
10	Amruta Warle	Good
11	Aishwarya Suresh Thorat	It's a very helpful and Inspiring Webinar. Thank you soo much
12	Meshram Ravindra Dilip	Amazing session
13	Diksha Shinde	Good
14	Gaurav Mansute	It was very nice session

15	Gectanjali Mane	Good
16	Kunal Chaure	Thank you...
17	Mangesh Bulbule	Good
18	Nikhil Jadhav	Nice
19	Nikita Tanpure	Very helpful.
20	Pallavi Shinde	Good
21	Pooja Galande	Nice
22	Pragalbha Salunkhe	Thank you...
23	Rajesh Gaikwad	It's a very helpful and Inspiring Webinar
24	Rohit Patil	Nice
25	Rutuja Ubale	It was very nice session
26	Sagar Rupekar	Nice
27	Saurabh Temkar	Awesome
28	Siddarth Nikalje	Good
29	Soham Joshi	It was very nice session
30	Sudhanshu Lakkam	It's a very helpful and Inspiring Webinar
31	Tejas Dagade	Good

32	Vishakha Mirashi	Awesome
33	Vishal Ghodke	Good
34	Vishal Patil Vishal Targude	Awesome

NOTICE

All teaching faculties are hereby informed that the Guest Lecture by Mr. Rajan Darekar on "Program On Latex" organised by Department of E&Tc on

Date and Time: 12 March 2022, Saturday at 10 AM

Proposed Agenda of the Webinar:

- Documentation distributed with LaTeX
- Research Workflow
- Mobile Platform
- Control over large documents containing sectioning, cross-references, tables and figures.
- Publishing Workflow

Kindly attend the session as it is very beneficial & informative.

The objective of this webinar is to support faculty members with knowledge and awareness about Latex. Latex is the leading developer of documentation software for engineers.

Dear Sir/Mam,

The Genba Sopanrao Moze trust is an educational trust, a pioneer in offering various technical Diploma, Degree approved by AICTE Delhi, Government of Maharashtra, DTE and affiliated to Savitribai Phule Pune University.

We the Department of E&Tc of GSMCOE, Balewadi Pune want to have Webinar at our Institute on "Programme on Latex" on 12th March 2022, Saturday at 10.00AM. It will really be a great pleasure to have your Offline presence.

Hope you will able to put some time with our faculties by your endless knowledge.

Thanks and Regards,

Faculty Co-ordinator.

APPRECIATION LETTER

On Behalf of Genba Sopanrao Moze College of Engineering, Balewadi, Tal:Haveli, Pune. We would like to express our Gratitude for the Webinar on "Programme on Latex" conducted by Mr. Rajan Darekar, Span Control, Pune.

Our Faculties are benefitted with the exposure of overall personality development.

It will definitely help for enhancement of professional growth.

Please accept our sincerest gratitude for accepting our Webinar Invitation. We are thankful for the Opportunity given to the Faculties of Genba Sopanrao Moze College of Engineering, Pune.

We are definitely looking for more Webinars and onsite Visit Workshops from your company in upcoming days.

NOTICE

All teaching faculties are hereby informed that the Guest Lecture by Mr. Abhinav Bhutada on "Matlab and it's application" organised by Department of E&Tc on
Date and Time: 21st August 2021, Saturday at 10 AM

Proposed Agenda of the Webinar:

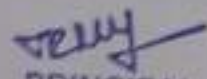

- MATLAB Online training courses
- MATLAB Online & Live Scripts
- Mobile Platform
- MATLAB Grader

Kindly attend the session as it is very beneficial & informative.

The objective of this webinar is to support faculty members with knowledge and awareness about Matlab. MathWorks is the leading developer of mathematical computing software for engineers.

REPORT

The program on IOT webinar was successfully completed. Notice was issued four days before the webinar to all teaching faculty. The webinar was conducted in E-301 room from 11.00 am - 4.00 pm. The speaker was Ms. Neha Bhosale.

Objectives

- Introduction to IOT.
- Standards Rules and Protocol of IOT.
- IOT used in daily-life application.

Content covered

1. The Objectives of IoT

The Internet of Things (IoT) is aimed at enabling the interconnection and integration of the physical world and the cyber space. It represents the trend of future networking, and leads the third wave of the IT industry revolution. IoT covers a wide spectrum of applications, including the detailed real-time sensing of our environment and the embedding of connected intelligence into everyday objects. Eventually, almost any thing will be able to have its own verifiable identity, be location-aware, have the ability to communicate and trade information, become a direct consumer and provider of services, and have the potential for fully autonomous operation.

2. IoT Standards Rule and Protocols

The Internet of Things (IoT) consists of smart devices that communicate with each other. It enables these devices to collect and exchange data. Besides, IoT has now a wide range of life applications such as industry, transportation, logistics, healthcare, smart environment, as well as personal, social gaming robot, and city information. Smart devices can have wired or wireless connection.

3. IOT used in daily-life application

1. Wearables

"EMPOWERMENT THROUGH TECHNOLOGICAL EXCELLENCE"
**GENBA SOPANRAO MOZE COLLEGE OF
ENGINEERING**

Recognized by AICTE, New Delhi; Approved by Govt. of Maharashtra; Affiliated to University of Pune)
25/1/3, Balewadi, Pune - 411045. Ph: 020-27390500
Website: www.gsmozecoe.co.in Email: gsmoze@yahoo.co.in

Wearable technology is the hallmark of IoT applications and one of the earliest industries to deploy IoT. We have fit bits, heart rate monitors and smartwatches these days. Guardian glucose monitoring device has been developed to help people with diabetes. It detects glucose levels in our body, uses a small electrode called the glucose sensor under the skin, and relates it to a radiofrequency monitoring device.

2. Smart Home Applications

The smart home is probably the first thing when we talk about the IoT application. The example we see the AI home automation is employed by **Mark Zuckerberg**. **Alan Pan's** home automation system, where a string of musical notes uses in-house functions.

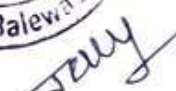

3. Health care

IoT applications can transform reactive medical-based systems into active wellness-based systems. Resources that are used in current medical research lack important real-world information. It uses controlled environments, leftover data, and volunteers for clinical trials. The **Internet of Things** improves the device's **power**, **precision** and **availability**. IoT focuses on building systems rather than just tools. Here's how the IoT-enabled care device works.

Subject: Request to take webinar on Student Data Keeping and Retrieval

Dear Madam,

The Genba Sopanrao Moze trust is an educational trust, a pioneer in imparting quality professional's education in field of Engineering. All the non-teaching staff welcome you to organize webinar in our college.

In connection with this to upgrade the knowledge of non-teaching staff, we are inviting you to conduct "Program on Student Data Keeping and Retrieval" webinar in our college. In order to gain knowledge about data retrieval. Hope you will be able to put some time and enlighten in non-teaching staff faculty by your endless knowledge.

Thanking you.

REPORT

The program on Student Data Keeping and Retrieval webinar was successfully completed. Notice was issued four days before the webinar to all non-teaching staff. The webinar was conducted in E-301 room from 11.00 am – 4.00 pm. The speaker was Ms. Neha Bhosale.

Objectives

- Introduction to data keeping and retrieval
- Ways to collect student data

Content covered

1. Introduction to data keeping and retrieval

In databases, data retrieval is the process of identifying and extracting data from a database, based on a query provided by the user or application. Data retrieval typically requires writing and executing data retrieval or extraction commands or queries on a database. Based on the query provided, the database looks for and retrieves the data requested. Applications and software generally use various queries to retrieve data in different formats. In addition to simple or smaller data, data retrieval can also include retrieving large amounts of data, usually in the form of reports.

2. Ways to collect student data

Here are some of the different ways to collect student data –

I. Connect with parents

In an online education model, it is difficult for you to single-handedly collect student data. To make things easier, connect with the parents of the students and get the information that you couldn't capture otherwise. Create a Google Form to ask all relevant questions and share it with the parents to collect the responses.

II. Use Gamification

Gamifying your data collection process is probably the most resourceful way of data collection. Advanced LMS platforms like ~~Canvas LMS~~ offer gamification features and you can get started with it effortlessly. For example, you can employ a predefined strategic assessment with a hint of gamification in it. But make sure that the students do not crack the game pattern which might result in loss of accurate data.

Website: www.gsmozecoe.co.in Email: gsmoze@yahoo.co.in

III. Create groups

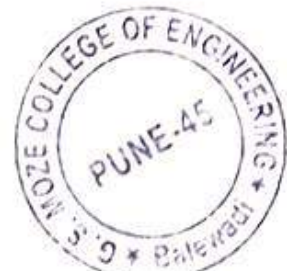

Creating groups with like-minded students can be beneficial for your data collection process. Organize regular calls in these groups and interact with the students using different strategic tools that can help assess the skill set of each student.

IV. Observe and record

While students are doing their assignments, observe their behaviour and attitude. Record them diligently. You will be able to capture various important personality traits of the student. This is because every student reacts uniquely to a particular situation. You can even note how a student responds when a question is asked and how well he/she has interpreted the course taught so far. All this data can help you take course corrective measures.

NOTICE

All teaching Faculties and Students are informed that Elsevier has organized a webinar on **"Program on SCADA"**.

Date and Time: Thursday 14/10/2021 10am

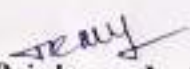

Proposed Agenda of the Webinar:

- Understanding Research Issues
- Research Workflow
- Publishing Workflow
- How to effectively use Science Direct to search and download relevant articles: DEMO.

The objective of this webinar is to support researchers and faculty members with knowledge and awareness for empowering research activities.
